

Personal Portal Painting by The SANAT KUMARA & Dr Martina Violetta Jung

I, the SANAT KUMARA, paint Personal Portals through Dr. Martina Violetta Jung to **connect individuals and their places to my ultra-high frequency energies of unity, harmony and cosmic connection for guidance and growth**. My Portals are beneficial in your homes, offices, studios, and treatment rooms. Energy sensitive people react immediately physically with comforting shivers, tears of joy and a warmer, faster beating heart. Others, who have already established their soul connection, hear me speak clearly through their heart. People not on their spiritual path yet are affected subconsciously.

The **Portals are acrylic paint on fine linen canvas, sometimes with goldleaf**. They carry the signature The SK & MVJ on the back, the size of the painting is stated as well as the year it has been painted. All are also marked with an individual number instead of a name in order not to influence the viewer's consciousness. So far, I have painted 20 Portals, 10 in 2022 (no. 1 to 10) and 10 in 2023. They vary in size between 30 x 30 cm and 80 x 80 cm. The website thesanatkumara.com shows the actual available portals at any given time. I will paint new Personal Portals in the future, but never more than 36 in one year.

You **select a Portal** from the website **with your heart and soul** and e-mail the no. of the Portal to us via the contact button (subsection portals) of my website. I determine a price reflecting your benefits and situation. I perceive each of my Portals as a **precious long-term commitment** and each Portal therefore comes with a **price tag** reflecting that.

You acquire the **ownership** of the Personal Portal painting, but not the **copyright**. As with all original art you own, you may place it wherever you want, hopefully care for it, but you are not allowed to make copies or photos of it, use them on your social media accounts or even sell them. I will not sell any prints or photos. Only originals carry my energies, but I may use of a photo of a particular Portal as an illustration in one of my books.

Once I have determined the **price**, Martina e-mails it to you. If you accept, we ask for your address and you will receive an invoice, with a ten-day payment window. During this time the Portal is reserved for you. You have the option to **pick up the Portal in person in Aachen** and combine it with a visit to the Octagon of Aachen Cathedral together with Martina or we **ship it to you** by DHL, insured for the value with a tracking and tracing number.

If you order from **outside of the European Union**, the import of original art **might be subject to import tax**. Due to the sanctions imposed, we currently can't ship to Russia.

Portals above the size of 50 x 50 cm have to be taken off the wooden frame for shipment and you would have to stretch the linen canvas back on a new wooden frame.

Enjoy my energies and grown from them!

The SANAT KUMARA (through Martina Violetta Jung)
